

HOUSING 1000

TOP 100 Fact Sheet

Housing 1000 is the local campaign under the national 100,000 Homes Campaign and is a partnership between Destination: Home, the Santa Clara County Collaborative on Affordable Housing and Homeless Issues and Community Technology Alliance.

According to the 2011 Santa Clara County Homeless Census and Survey, 7,045 people are homeless in Santa Clara County on a given night. Of these, 2,520 are considered chronically homeless, an eleven percent increase since the 2009 census. Our goal is to house 1,000 homeless individuals by 2013. In conjunction with the national 100,000 Homes Campaign, our local Housing 1000 is dedicated to finding our most vulnerable and long-term homeless individuals and placing them in permanent housing with the services they need to stay housed.

We will do this by clarifying the needs of the homeless people in our community. Then, we will bring this information back to our community partners – including our cities, our county, our housing authority, our service providers, and other community stakeholders – so that *together*, we can create permanent housing solutions for those most in need.

You can learn more about our next steps at www.housing1000sv.org.

Results for the top 100 clients based on length of homelessness and vulnerability.

At-Risk Indicators

Indicator	Number
At-Risk Tri-Morbid	77
At-Risk ER or Hospitalized Over 3X	36
At-Risk ER over 3X	33
At-Risk Age Over 60	33

Housing 1000:

Housing 1000 is the local campaign under the national 100,000 Homes Campaign and is a partnership between Destination: Home, the Santa Clara County Collaborative on Affordable Housing and Homeless Issues and Community Technology Alliance. Together, we have a plan to permanently house 1,000 homeless individuals by 2013.

100,000 Homes Campaign:

A project of Common Ground, the 100,000 Homes Campaign is bringing together change agents to find homes for 100,000 vulnerable, long-term homeless individuals and families across the country by July 2013. Together, we are fundamentally altering our nation's response to chronic homelessness by giving communities concrete tools and connecting them with one another so no one has to innovate alone. Over 85 communities have joined the Campaign and helped over 7,500 homeless people reconnect with homes.
